

# CraigCat 20th ANNIVERSARY CELEBRATION

## EXHILARATION AND APPEAL ARE STANDARD FOR 2010.

*What better way to celebrate the 20th anniversary of the CraigCat Catamaran than to pull out all the stops for the 2010 E2 Elite and Catch-it models! Impressive upgrades such as an enhanced audio system and the new fuel efficient, highly dependable Nissan Outboard Motors are just a few of the additions on the horizon.*

## CRAIGCAT DELIVERS MORE IN 2010

Over the years, CraigCat has strived to not only deliver a watercraft that is on the cutting edge but also provide the best compact powerboats on the planet. Nobody does boats like CraigCat and nobody does outboards like Nissan Marine. Nissan outboards have been acknowledged as the most dependable motors on the market. Amazingly quiet 4-stroke, featuring electronic fuel injection offers silky smooth shifting and unmatched reliability. Mechanically sound on the inside, visually appealing on the out - every-thing from the tubular air-intake, to the streamlined control box and even the stylized ignition key has been thoughtfully designed for your viewing and performance pleasure. Finally, there is an outboard engine that enhances the fluid design and sleek lines of the CraigCat. Compact power, unbeatable performance, low emissions, and exceptional fuel economy, Nissan outboards have it all!

Another colossal upgrade for 2010 is an entirely new, more powerful aquatic stereo system. A standard accessory on all E2 Elite and Catch-It models is the advanced Jensen Marine Stereo; it's unlike anything on the water. The system integrates the most advanced features in water-resistant marine design with the latest high-tech audio features. Other extraordinary additions include a redesigned waterproof stereo cabinet, customized CraigCat bimini top, and marine-grade stainless steel beverage holders - now refreshment is just an arm's length away!

*Our ambition to be the best is embodied in our new line of boat models for 2010!*

It's a lofty goal that can only be accomplished by aligning CraigCat Catamarans with superior products and exceptional companies. Nissan Marine embodies both. Nissan Marine and their service people are among the most knowledgeable in the entire industry. They offer a 3-year limited warranty and are backed by over 850 dealers in the United States alone, plus a host of accessible dealers in Canada, Puerto Rico and other worldwide locations.
